

Iron-Horse® – The Classic among the dirt catching mats!

The Iron-Horse® is the work horse among the washable dirt- collecting mats. Not only is the mat extremely robust it is also a visual enhancement for entrances in public buildings, industrial and commercial plants. Iron-Horse® mats capture a large part of the dirt which would otherwise be carried into your building. Last but not least it ensures more safety by providing clean and dry floors.

Advantages

The Iron-Horse® mat was developed to stand up to the toughest demands. Its fibres, made of 100% solution-dyed nylon, remove dirt and moisture from shoe soles, retaining it between the fibres. Placed at entrances and other areas with high foot traffic, the Iron-Horse® can make a decisive difference in keeping your entrances and rooms clean. It absorbs dirt and moisture, considerably reduces your cleaning
